

Help Bridge the Digital Divide

Your Old Computer Can Change a Life

Did you know? Many families in our community don't have access to a home computer. By donating your old laptop or desktop, you can help The Commons give them a second chance at learning, working, and staying connected.

We have an experienced team to make it easy for you to pass on your used technology responsibly.

What we accept:

- Windows Laptops
- Desktop PCs
- Monitors (working condition)

What we cannot accept:

- Broken screens
- Severely damaged hardware
- Non-electronic accessories

 Simply bring your working device to The Commons, opposite IGA within the Spencer Park IGA Shopping Centre.

 Our team will securely wipe, and refurbish it—then pass it on to a family in need.

The Commons is a local charity committed to reducing digital inequality by providing refurbished computers to low-income families, students, and individuals who would otherwise be left behind in today's digital world.
